FlexTile™

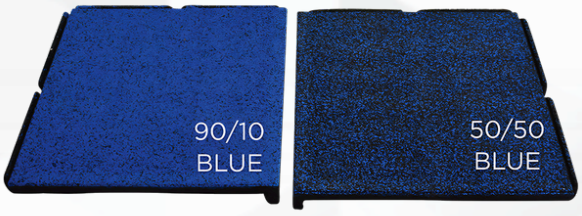

INTERLOCKING RUBBER TILES

Buffings: Pigmented using organic powder color coating methods that will not delaminate over time. Sealed with specially formulated polymer agent that bonds pigments into the rubber.

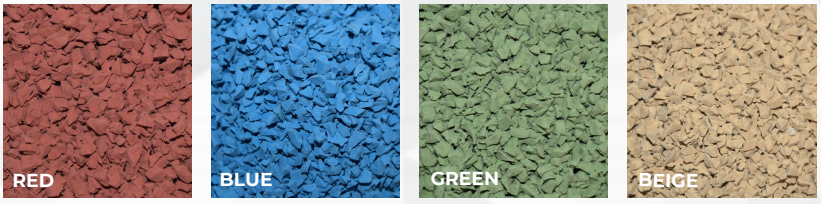

EPDM granules: Used to create options from bright solids to special blends for specific color themes. Mixtures includes a vibrant 90% EPDM/10% black mesh for standout solids, a 50/50 mix with black mesh, and mixtures with up to 3 EPDM colors. Ask your rep about specific blends to cover your space needs.

STANDARD COLORS

PREMIUM COLORS

Please be advised that actual colors and availability may vary depending on region. All non-standard colors are subject to premium pricing and may require an extended lead time. Request samples for more accurate color matches. Other colors may be available upon request.
